SECTION 1 – INTRODUCTION

About This Provider Directory

This directory is current as of 9/28/2023. This provider directory lists in-network plan providers by county, according to the location where Dean Health Plan has approved them to provide services. Other types of plans may offer different provider options. See your member certificate if you are not sure which plan you have.

There are symbols that appear next to names listed in this provider directory. These symbols provide important information you will need when choosing a provider. Each page displays a key to explain what the symbols mean.

Go Online To Find a Provider

Although this provider directory was accurate at the time it was printed the provider network may have changed. You should confirm our network providers before you seek care. You can do this by viewing our online provider directory at deancare.com/doctors. You can search by name, specialty, location and more.

Your Primary Care Provider (PCP)

When you enroll as a Member you will choose a PCP to manage your health care. Your PCP evaluates your total health needs and provides personal medical care in one or more medical fields. Our PCPs are listed within this provider directory, or you can visit deancare.com/newmember. There, you will find the most up-to-date listing of providers and information about finding and choosing your new PCP.

Changing Your PCP

You are free to switch to a different PCP at any time. If you are changing to another PCP within the same clinic, you may ask that clinic’s staff for assistance. Otherwise you can change your PCP on DeanConnect (Dean Health Plan’s member portal available on deancare.com) or call our Customer Care Center.

Areas of Practice

PCPs generally focus on certain medical areas of practice and each area has its own benefits:

- Family medicine focuses on health care for the entire family. Some family medicine providers include obstetrics, which is the care of women during pregnancy and childbirth.
- Internal medicine focuses on adult medicine and the aging process (ages 18 and older). Some internal medicine providers have a particular focus on complex or multiple ongoing health conditions.
- Pediatrics focuses on childhood medicine and health care (up to age 17).

Prior Authorization

You must get prior authorization from us before you receive certain services or procedures. If you fail to get Prior Authorization for any covered service which requires an authorization, you, the Member, will be responsible for paying up to 100% of the total cost. Review the Member Guide on deancare.com/members to learn more about the prior authorization process.

You can also call our Customer Care Center at 800-279-1301 for more information. Refer to your member certificate and benefit summary for benefit limitations and coverage details.

Get the Right Care

When you need care, first call your PCP or primary care clinic for an available appointment.

If your need is more immediate, urgent or emergency care may be appropriate.

- Urgent care is meant to treat medical problems sooner than a scheduled office visit. If urgent care is needed, go to an Urgent Care Clinic, which is generally open evenings and weekends.
- Emergency care is for illness or injuries that are life-threatening. In the case of an emergency, call 911 or go to the nearest emergency room.

Urgent care and emergency room copays are generally higher than office visit copays. Visit deancare.com/rightcare for more details about getting the right care.

Dean On Call

Have health questions or not sure if you need medical care? Call our free 24-hour nurse line at 800-57-NURSE to speak with our exceptional registered nurses. Due to licensing laws, Dean On Call services are only available to Wisconsin residents.

DeanConnect

Get online access to your plan information at any time. With DeanConnect, you can review your benefits, change your PCP and much more! Visit deancare.com/newmember to register today.

Pharmacy

Our pharmacy page provides information about which medications are covered and what programs are available. Visit deancare.com/pharmacy to learn more and to search for a pharmacy near you.
How do I know whether to go to the Emergency Room or an Urgent Care Center?

An EMERGENCY is the sudden and unexpected onset of acute symptoms that would lead a reasonable person to seek immediate medical attention. Emergencies include: heart attacks, strokes, poisoning, loss of consciousness and loss of breathing. Network facilities should be used whenever possible when seeking emergency services. However, if you are unable to reach a network provider please go to the nearest medical facility.

URGENT CARE provides treatment that is needed sooner than a routine doctor’s visit. Urgent care is not emergency care. Some examples of ailments treated by urgent care include: most broken bones, sprains, minor cuts, minor burns, most drug reactions and non-severe bleeding.
